TRISA - the Brand

Desirable and attractive

TRISA fulfills the desire for clean, healthy and beautiful teeth by offering superior products for the daily oral care!

Unique

TRISA is THE Swiss oral care brand!

Credible

TRISA stands for typical Swiss attributes:
leading technology, high quality, precision and pureness!

Easy to remember

The clear TRISA brand communication is desirable, unique and credible!

Finest Swiss Oral Care 

Thanks to their **micro fine, highly flexible «Fine Tip» ends**, the conical filaments can enter the interdental areas more easily than conventional filaments and so clean especially thoroughly and at the same time gently.

Fine Tip

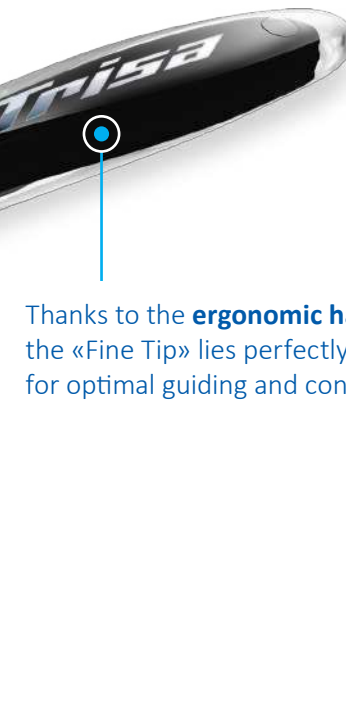

for best prevention and deep cleaning

The pointed, compact brush head with 36 filament tufts enables **easy cleaning especially also of hard to reach areas.**

The coloured core with its highly transparent surrounding underlines the **exclusive, luxurious and cosmetic appearance** of the «Fine Tip».

Other colors:

Thanks to the **ergonomic handle design** the «Fine Tip» lies perfectly in the hand for optimal guiding and control.

TRISA Fine Tip

The micro-smooth «FineTip» filament ends and the compact brush head allow a through cleaning of teeth, especially also in hard to reach areas.

For a professional cleaning in the interdental spaces

The longer, smooth-as-silk interdental filaments clean deeply in the **interdental spaces**.

Shorter **cleaning filaments** thoroughly remove plaque from tooth surfaces.

The soft material in the thumb area and the ergonomic, attractive **multi-component handle** promote an optimal grip and perfect navigation.

The pleasant **tongue cleaner** located on the back of the brush head helps gently remove bacterial plaque from the tongue and cheek.

TRISA Pro Interdental

Professional cleaning: (1) Longer, smooth-as-silk interdental filaments clean deeply in the interdental spaces. (2) Shorter cleaning filaments thoroughly remove plaque from tooth surfaces.

INNOVATION

The harmonious, modern, and up-to-date pastel colors, combined with the adorable woodland animals, encourage a playful and gentle start to oral care for children and their parents.

The bristle field encircled by red tufts is assisting in determining the correct amount of toothpaste (a pea sized portion is recommended).

The extremely small brush head is designed for the mouth of a small child.

Particularly soft filaments clean extremely gently and yet efficiently.

The large and soft two-component handle allows parents to support their child when brushing their teeth.

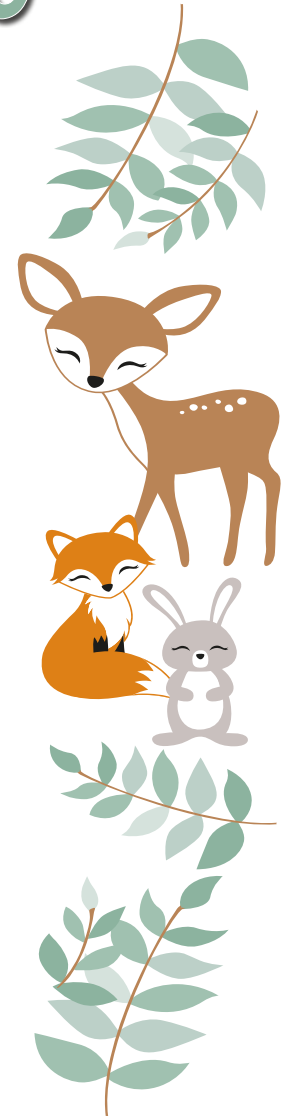

Two elegant support bars ensure a stable positioning in the bathroom, preventing the toothbrush from tipping over when applying toothpaste.

The soft brush head is gentle on sensitive gums.

BABY

0-3 YEARS

TRISA Baby

The small brush head with especially soft filaments for a gentle cleaning right from the first milk tooth. Apply a small amount of toothpaste to the brush area surrounded by red filament tufts.

INNOVATION

Exciting and current fantasy themes invite children to immerse themselves in a world full of adventure, sparking their curiosity for playful tooth cleaning.

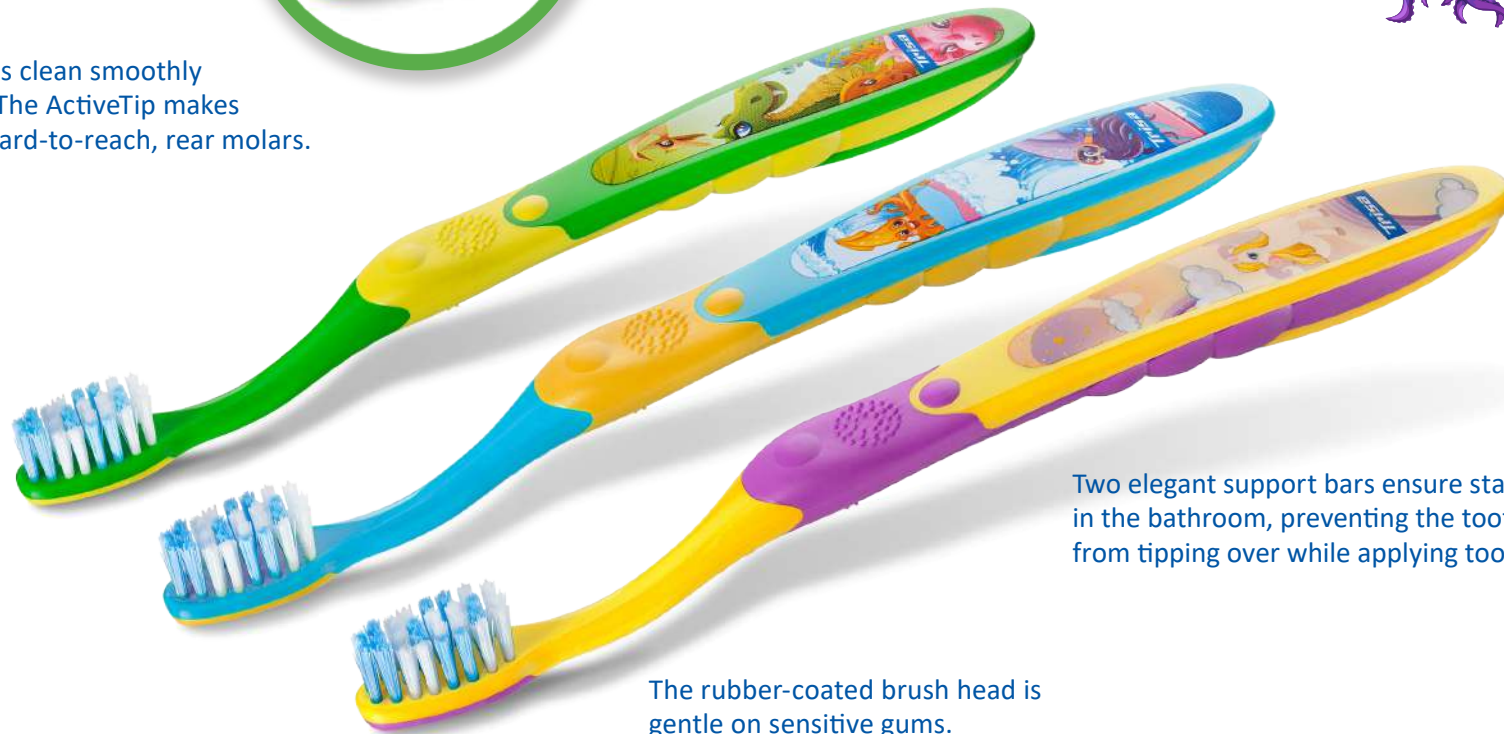

The bristle field surrounded by blue bristles helps determine the correct amount of toothpaste (a pea-sized amount is recommended).

The small brush head is designed for the mouth of a child aged 3 to 6 years.

The soft filaments clean smoothly and thoroughly. The ActiveTip makes it easy to clean hard-to-reach, rear molars.

The large and soft two-component handle facilitates easy handling.

The rubber-coated brush head is gentle on sensitive gums.

Kid

3-6 years

Two elegant support bars ensure stable positioning in the bathroom, preventing the toothbrush from tipping over while applying toothpaste.

TRISA Kid

The brush head with soft filaments was developed especially for childrens teeth. Apply a small amount of toothpaste to the brush area surrounded by coloured filament tufts.

TRISA "2 in 1 Expert Floss" has been specifically developed for cleaning large interdental spaces, braces, dental bridges and implants.

The **reinforced ends** allow exact positioning under braces, dental bridges and implants.

The **fluffy dental floss** swells during use and thus adapts to the different sizes of the interdental spaces. Food residues and plaque are thoroughly removed from the interdental spaces.

TRISA SONIC Ultimate

Next generation of TRISA sonic toothbrushes

SMART DISPLAY:

Display for showing the selected cleaning mode and the charging status - for maximum user comfort!

3 CLEANING MODES:

Teeth and gums are cleaned reliably and thoroughly with three different programmes.

- clean
- sensitive
- white

VISUAL PRESSURE CONTROL:

If too much pressure is applied, the indicator lights up - for effective and gentle cleaning.

REPLACEMENT BRUSH HEAD:

Particularly fine bristles ensure gentle and at the same time thorough cleaning. Thanks to the compact and thin shape of the brush head, even hard-to-reach areas can be easily reached.

TIME CONTROL:

After every 30 seconds the automatic TIME CONTROL signals to move on to the next area of teeth. After two minutes, a longer interruption indicates that the cleaning time as recommended by dentists has been reached. For a consistent cleaning duration.

HIGH-QUALITY DESIGN:

The sonic toothbrush fits perfectly into every bathroom with its new, elegant design.

BATTERY:

One battery charge lasts for an extra-long service time of up to 2 weeks (2x2 minutes per day)

 **CHARGABLE**

Finest Swiss Oral Care 

TRISA Sonic Ultimate Black Edition

For a superior deep cleaning performance thanks to 40,000 Sonic movements and the hydrodynamic effect, they generate.
